

## *Curriculum Audits*

### **Levels of ESC Support and Suggested Fee Structure**

Pricing for the use of this tool will vary widely depending on the answers to the following questions:

- How well developed is the curriculum that is to be audited?
- What are the specific needs of the district in relation to the audit?
- What is the scope and quality of the documents to be reviewed?
- What is the scope of the audit? (i.e. Which standards will be audited?)

It is highly recommended that a formal procedural meeting be held with the district prior to pricing to determine district needs in these areas.
