

Grown Locally: Parent Power Community Capacity!

Levels of ESC Support and Suggested Fee Structure

We recommend marketing this product with an ESC facilitator. The pricing structure would depend on the daily rate of the ESC. We suggest \$400 for the tool plus the daily rate of the facilitator.

Materials include the printed toolkits, chart paper, stickies (voting and group response), and markers.

The facilitator will need to ensure the school has provided the surveys to parents, has identified and notified the team, and general meeting logistics; however, no advance onsite visit is required.

ESC personnel may take advantage of follow up opportunities by proposing to continue to meet with the team throughout the year to check on progress or to re-visit the plan.
