

Warming Up the Classroom Climate

Levels of ESC Support and Suggested Fee Structure

ESCs will be required to facilitate support to administrators who use the climate tool. Fees for the tool should be based on the costs you will incur by hiring facilitators or ESC consultant time.

Instructions on the use of this tool are provided on the webpage http://olc.region10.org/course_assets/warmingup/.

Both the facilitator and the ESC consultant should be familiar with the climate assessment and the 4 areas of research behind safety, interpersonal relationships, teaching and learning, and institutional environment.
